Dear David,

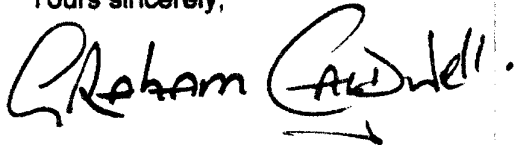

RE: Application for Skilled independent Permanent Residency:
Ian Robert Caldwell

I have just received my copy of the permanent residency Visa grant dated 17th January 2005 for my 27-year-old son Ian who presently lives in the UK. To say that I'm absolutely delighted is an understatement; knowing how difficult it is these days to meet all the strict requirements under the above class type.

I was talking to Ian only this week about your success in assisting him with this grant and frankly we both felt that if we had not come to you for your professional services in this matter his application may well have failed. We both believe that your intimate knowledge of the application stages, beginning with having his job skill of Sound Engineer first recognised, before entering into the application for migration, was key to his success.

Ian and me wish to thank you for all your excellent knowledge and advice that you provided us in every step of the way and be advised that I would have no hesitation recommending your services to others should you wish to pass on my contact details.

Yours sincerely,

Graham L. Caldwell.
